

Mark M Koeroghlian

PATENTS

"Apparatus and Method for Combustion within Porous Matrix Elements", with R. Bell et al, [US Patent No. 5141432](#).

"Miniature Railgun Engine Igniter", with R.D. Matthews, et al, [US Patent 5211142](#).

"Sealed Hydraulic Lifter for Extreme Angle Operation", with A. Falkowski, [US Patent 6318324](#).

"Excess Flow Valve", with D.S. Glover, and J. Scanlon, [US Patent 6488047](#).

"Excess Flow Valve with Magnet", with D.S. Glover, and J. Scanlon, [US Patent 6923206](#).

"Multiple Displacement System for an Engine", with A. Falkowski et al, [US Patent 7040265](#).

"Deactivating Valve Lifter", with A. Falkowski et al, Application [20040244751](#).

"Sensors and Related Devices and Methods", with K. Kunz, et al, [US Patent 7327068](#).

"Flow Valve", with M. Klein, 2011, Application [20120181471](#), Pending.

"Over-Center Latch Mechanism to Enable Quick Release" with J Gensler, Application 61/451,223.

"Embedded Linear Motor Drive for IR Camera Shutter", with M Kelley, Application [20130223835](#), Pending.
